Ex Chiesa Santa Maria delle Croci:
immobile non di competenza dell'Ente
e non soggetto ad intervento.

This architectural floor plan shows the layout of the first floor. It includes a large open area on the left, a central staircase, and several smaller rooms and corridors on the right side. The drawing is a simple line sketch.

This architectural section drawing illustrates a building's internal structure. On the left, a vertical section shows a wall with a semi-circular window and a door. The main part of the drawing shows a cross-section of a building with a gabled roof. A staircase is depicted with red lines, leading from a lower level to an upper level. The roof is shown with red hatching, and the interior walls and floor are outlined in black. The drawing is a technical representation of a building's design.

e non soggetto ad intervento.

[illegible]

This architectural section drawing shows a building facade with a red roof and yellow accents. The facade features a series of windows and doors, with a prominent arched entrance on the left. The drawing is a technical representation of the building's structure and design.

This architectural drawing shows the main facade of a three-story building. The ground floor features a central entrance with a semi-circular archway and a set of steps. To the left of the entrance is a large arched window, and to the right are several rectangular windows. The second floor has a series of rectangular windows, some of which are grouped. The third floor has a row of small, square windows. The building is topped with a flat roof. To the left of the main building, a smaller structure with a gabled roof is partially visible.

This architectural elevation drawing shows the front facade of the building. It features a prominent central section with a gabled roof and a series of windows, some of which are highlighted in yellow and red. To the right, a long, low wing extends with a series of uniform windows. The drawing uses a color-coded system to represent different window types or materials, with yellow and red indicating specific design elements.

This architectural section drawing shows a building with a sloped roof. The drawing includes a circular inset on the left side, which provides a detailed view of the roof structure, showing the roof pitch and the internal framing. The main drawing shows the building's profile with various rooms and structural elements indicated by lines and shading. The circular inset is labeled with 'A' and 'B' at its top and bottom, respectively. The main drawing has a vertical line labeled 'A' on the left and 'B' on the right, indicating the section line. The building's roof is shown with a steep slope, and the interior spaces are defined by dashed lines. The drawing is a technical representation of a building's internal structure and roof profile.
